Objective of the event	<ol style="list-style-type: none">1. Ability to work outside your geolocation2. Market opportunities3. Job Security4. Upcoming trends
About of the Event	<p>DBIT is a Foundation who works for there students welfare, so we keep doing events on different topics. This time the topic is “Hiring Trends in IT and Live Programming”developers takes a lot of skill because majority of them are passive candidates.</p> <p>As a tech recruiter, you’re constantly forced to learn new things. The more educated you are, the faster you can make informed decisions to outperform your competitors. We’ve gone through research from leading organizations including The Bureau of Labor Statistics, Stack Overflow, Manpower Group, Evans Data Corporation and Vision Mobile to give you 30 industry insights for hiring developers.</p>
Outcome of the event	<ol style="list-style-type: none">1. To effectively assess technical skills2. smart companies will avoid whiteboard tests3. Bug-hunting exercises, and random programming questions and, instead, simulate a “first day at work” experience using dedicated skill screening software
